12th Australian
Light Horse
Regiment

Lieutenant-Colonel
DONALD CAMERON

For the conspicuous, able and determined manner in which he directed the attack by his Regiment, the 12th A.L.H., on the defenses of BERRHEBA on 31/10/17, and in conjunction with the 4th A.L.H. Regt., was instrumental in the marked success of the action and the capture of the town, as well as of several field guns, machine guns, and about 700 prisoners.

This Regiment was confronted with several very strong defensive positions and redoubts, and the wholly successful attack by this Regiment, reflects great credit on the skillful and courageous leading by Lieut. Col. CAMERON.
