			<p>Work on AUJA defences consisting of ROLLO, RAEBURN, STAFFORD, STEVEN A, STEVEN B, TOMMY 1, 2 & 3, TABOR, TENNENT, and UGLY.</p> <p>Wiring consists of a five wire sheep fence and double apron with five strands in each apron, and iron standards about 6 yards apart. lately, owing to shortage of wire only single apron has been erected.</p> <p>The ground is generally good for entrenching but where rock is met with this has to be blasted out by Engineers.</p> <p>Most of the defences consist of three to four posts each capable of holding 10 to 15 men and with a M.G. emplacement at either end. Communication trenches from these run into the Wadis in rear which afford good natural cover for troops to mass before entering the trenches or during a heavy bombardment.</p> <p>The barb wire can in all cases be enfiladed from these posts, and the defences command all approaches to the AUJA in this sector and from each post there is a good field of fire.</p> <p>No difficulty has been experienced carting material to these posts as there is a good wagon track along the bed of the AUJA immediately in rear of these posts.</p> <p>During the month reinforcements received from MOASCAR totalled 6 Officers and 142 O/Ranks and 2 officers and 44 O/Ranks were evacuated to Hospital with sickness.</p> <p>A considerable number of the reinforcements received were men from the Camel Corps which has been disbanded.</p> <p>Gas drill has been carried out with P.H. Helmets during the month and these are carried by all ranks when on working parties and away from the camp.</p> <p>Owing to our proximity to the Wadi AUJA water has been plentiful, this has also been the case with the detached squadron at AUJA Bridgehead which is camped close to the Jordan.</p> <p>The weather during the month has invariably been hot and often very dusty.</p> <p>During the month the War Establishment for the Regiment has been altered by Part XI War Establishment, the numbers now being rather lower than previously. e.g.</p> <p>Old Establishment 24 Off 499 O/Rks 491 rides 62 draughts 37 packs 22 donkeys.</p> <p>New Establishment 24 " 454 " 448 " 62 " 37 " 22 " JWR</p>
